

## Fellowships and Grant Opportunities – Other

Due Date	Source	Name	Amount	Additional Information
November	A.P. Giannini Foundation	<a href="#">Postdoctoral Research Fellowship and Leadership Award</a>	1-3 yrs; Stipend for salary support only. Year 1- \$56K, Year 2 - \$58K and Year 3 - \$60K	The Fellowship & Career Development Award Program supports innovative research in the basic sciences and applied fields and trains fellows to become established investigators. Research projects should advance the translation of biomedical science into treatments, prevention and cures for human diseases.
September	American Philosophical Society	<a href="#">Daland Fellowships in Clinical Investigation</a>	\$40K; 1-2 yrs.	<p>The APS awards a limited number of Daland Fellowships in Clinical Investigation for research in the several branches of clinical medicine, including internal medicine, neurology, pediatrics, psychiatry, and surgery. The committee emphasizes patient-oriented research.</p> <ul style="list-style-type: none"> <li>• Must be doing direct clinical care</li> <li>• Must have a letter of recommendation from the Department Chair</li> <li>• 100% of fellows time devoted to research</li> </ul>
October	Chan Zuckerberg Biohub	<a href="#">Physician-Scientist Fellowship Program</a>	2-3 yrs; Chan Zuckerberg Biohub Physician-Scientist fellows are paid according to their ACGME post-graduate scale and commensurate with other	CZ Biohub's unique program is designed for physicians interested in creating new knowledge that addresses challenging problems in human health. Physicians will have an opportunity to work closely with scientists and train in disciplines that

Due Date	Source	Name	Amount	Additional Information
			fellows/residents in their respective programs	<p>promise to transform current paradigms of patient care.</p> <p>This program will develop the next generation of physician-scientists and equip them with the skills, vocabulary and knowledge necessary to contribute substantively to biomedical discovery. Physician-scientists will be critical to the goal of solving problems previously thought to be impossible.</p>
Applications accepted beginning in November with fellowship beginning the next academic year (July 1 <sup>st</sup> )	Harvard Center for Surgery and Public Health	<p><a href="#">Arthur Tracy Cabot Fellowship, Harvard Center for Surgery and Public Health</a></p> <p>For more information, contact administrative director, <a href="#">Melissa Poleo, MS</a>.</p>	Unfunded; two-year program; fellows must identify their own funding source, which may include their own institution, mentor or grants.	As one of the premiere programs in the country dedicated to surgical services research, the CSPH's Fellowship is at the heart of our mission, and central to our goal of educating the next generation of leaders in the field. We provide surgical residents and post-doctoral fellows with the educational opportunities, mentoring support, and resources necessary to launch their careers as surgical scientists. The CSPH's culture fosters a diverse portfolio of multidisciplinary research interests while creating synergies around compelling health services and policy questions. With support in the form of research development, project management, and biostatistical programming expertise, the CSPH advances the research agendas of its faculty members and research trainees. A central space brings fellows together with

				<p>faculty, biostatisticians, and administrative staff, creating a “think tank” environment that improves the efficiency and flow of ideas and skills, and facilitates access to data, tools, and the CSPH’s collective expertise.</p>
June	Helen Hay Whitney Foundation	<p><a href="#">Research Fellowship</a></p> <p>A two-day Annual Meeting of Fellows is held in November of each year, at which each third-year Fellow presents the results of his or her research. This meeting is an important component of the Fellowship Program because of the opportunity it provides the Fellows for scientific interchange and exposure to biomedical fields other than their own. Attendance at the meeting in its entirety is expected as a condition of acceptance of the fellowship.</p>	<p>\$56 K – Year 1 \$59 K – Year 2 \$62 K – Year 3</p> <p>\$1,500 - Annual award to host institution – used for lab supplies or computers.</p> <p>Supplementation to the stipend is permitted given some restrictions.</p>	<p>The HHWF supports early postdoctoral research training in all basic biomedical sciences. To attain its ultimate goal of increasing the number of imaginative, well-trained and dedicated medical scientists, the Foundation grants financial support of sufficient duration to help further the careers of young men and women engaged in biological or medical research. Candidates who hold, or are in the final stages of obtaining a Ph.D., M.D., or equivalent degree and are seeking beginning postdoctoral training in basic biomedical research are eligible to apply for a fellowship.</p> <p>The Whitney Fellowship is for a period of three years, contingent on performance satisfactory to the Foundation’s Scientific Advisory Committee. <b>One and two-year fellowships are not considered.</b></p>
December	Howard Hughes Medical Institute (HHMI)	<p><a href="#">Hanna H. Gray Fellows Program</a></p>	<p>Fellows in the postdoctoral training phase receive total support of \$90,000 annually, allocated for</p>	<p>HHMI seeks to increase diversity in the biomedical research community. We know that the biggest challenges in science call for diverse perspectives and original thinking. The goal of the Hanna H.</p>

			salary and an expense allowance. This phase is a minimum of two and maximum of four years.	<p>Gray Fellows Program is to recruit and retain individuals from gender, racial, ethnic, and other groups underrepresented in the life sciences, including those individuals from disadvantaged backgrounds, at the career stages targeted by this program.</p> <p>Following the “people, not projects” philosophy of HHMI, the competition is open to those dedicated to basic research from both doctoral and/or medical training paths in the biomedical and life science disciplines.</p>
May	Surgical Infection Society	<a href="#">Resident Fellowship Award</a>	<p>1-2 years. \$50,000/year is available and can be supplemented with no more than \$25,000 in extramural funding.</p> <p>Applications must be sponsored by an SIS member.</p>	<p>This award is intended for residents or fellows who have completed at least two years of post-graduate training in a surgical discipline. The purpose of this award is to provide the opportunity for a resident or fellow to spend one year in full-time research in the laboratory of a member of the SIS.</p> <p>The SIS/Wyeth Evaluative Research Fellowship Award only supports projects dealing with evaluative research in surgical infection. Individuals who have completed at least two years of post-graduate training in a surgical discipline are eligible to apply for the SIS/Pfizer Evaluative Research Fellowship Award.</p>
